1 Sample Dialogue Format

Here's an example of how to format dialogue in LaTeX:

Character A: Hello there! How are you doing today?
Character B: I'm doing well, thank you for asking. How about yourself?
Character A: (smiling) Pretty good! I've been working on some interesting projects lately.
Character B: (curious) Oh really? What kind of projects?
Character A: Mostly programming and robotics work. It's quite fascinating!

1.1 Alternative Format with Stage Directions

You can also format it more like a script:

CHARACTER A *(enters the room confidently)*
Good morning everyone!
CHARACTER B *(looking up from their work)*
Oh, good morning! Ready for today's meeting?
CHARACTER A *(nodding enthusiastically)*
Absolutely! I've prepared all the documents we need.
